Total items listed in this report: 3638

Style Notes: 1. Ledger #1 (marked "2141 to 3043") pages 81 and 82 (part of June 1915) are missing.

2. Serial numbers from 1911 through 1941 are often underlined in blue or red, or both. Blue seems to indicate a repaired instrument; red a PianOrchestra. In database reports blue or red underlining is shown in black, but with underlining color(s) represented at the right of the serial number. Variations are (1) "b" for blue, (2) "r" for red, (3) "br" for blue over red, (4) "rb" for red over blue, and (5) "bb" for blue over blue. In 1942 and 1943 underlining was no longer used, but the database editor added a "u" suffix (instead of "b") signifying organs being repaired during these years.

3. In numerous notations, "WHW" are the initials of Walter H. Wendell, Vice-President and General Manager of the Rudolph Wurlitzer Manufacturing Company, North Tonawanda, N.Y.

4. Throughout the ledgers the term "Gebruder" was consistently used to represent Gebruder Bruder organs. This deficiency has been corrected to either "Gebr. Bruder" or "Gebrüder [Bruder]" depending upon field space limitations.

5. Numerous early deKleist built Wurlitzer organs have the notation "P" associated with the ledger entry. This is speculated to suggest that these small organs may have been fitted with a "Panorama" device once offered by deKleist at extra cost.

6. Semicolons (;) separate individual items in notations; periods are absent unless present in the source text.

7. The original ledger material has been slightly edited and obvious spelling and location errors corrected, but in all instances the original intent has been preserved. Otherwise the reader would be confronted with an endless number or annoying (sic) notations.
